Education

CVR College of Engineering	Jul 2024 - Jun 2028
Bachelor of Technology (BTech) Computer Science & Engineering - Cyber Security (CS-CyS)	
English Union School 87.5	Jul 2012 - Dec 2022
10th (X) Central Board of Secondary Education (CBSE)	Karimnagar Telangana India 505001

Experience

NewGen CVR	Jan 2025 - Present
Full Stack Developer	ibrahimpatnam Telangana
Jan 2025 – Present Ibrahimpatnam, Telangana	
- Developed a web-based control interface for a service robot enabling remote monitoring and management of robotic services. - Built the backend APIs using Node.js and PostgreSQL to manage robot commands and system data. - Designed a responsive UI using modern web technologies for real-time interaction with the robot system. - Integrated network-based communication with robot hardware (Raspberry Pi).	

Projects

Service Robot
Technologies: full, Flutter

Skills

Technologies: Node.js, Flutter, MongoDB, PostgreSQL
Development Skills: Full Stack Development, Android Development
Cybersecurity: Linux, Shell Script
Tools: github, git
Competitive programming: C++

Projects

<u>Service robot</u>	
Service Robot System	
- Built a web dashboard to control and monitor a service robot over a network interface. - Implemented backend APIs using Node.js for robot communication. - Designed a real-time interface for command execution and monitoring. - Integrated Raspberry Pi-based robot hardware with the web application.	
Technologies: Node.js, PostgreSQL, Flutter, Networking	
Technologies: Full Stack Development, Android Development	
<u>PDF-Hub</u>	Mar 2026
This is a personal project. Where students who want notes for preparation for their exams from JNTUH university. Contains all the previous question papers	
Technologies: Full Stack Development
